

SPARK

silentlab

Give your working environment the spark it needs. SPARK is our first acoustic meeting room with increased mechanical resistance, yet it still retains maximum functionality and elegant curves. It is easy to maintain and holds up even under the most difficult conditions. It performs beautifully for example in production halls or public areas.

environmental product profile

This product has an Environmental Product Declaration (EPD^{*4}) prepared in accordance with ISO 14025 and the implementing standards ISO 14040, ISO 14044, and EN 15804.

^{*1} ISO 23351-1:2020 – Acoustics — Measurement of speech level reduction of furniture ensembles and enclosures — Part 1: Laboratory method.

^{*2} Consumption without attached appliances.

^{*3} Product specifications apply when using standard materials. To ensure optimal performance, the product is designed to work with carefully selected and tested materials. Using materials not specified in the SilentLab material selection may affect acoustic properties and functionality.

^{*4} The EPD provides summary information on the potential environmental impacts of the product throughout its entire life cycle.
